

Winter 2018

President's Message

Welcome to the Lansing Area Chapter's first e-newsletter! We are working hard to make changes and improve communication. Although they are a work in progress, you can go to our [website](http://www.lansingsci.com) to see what is new at www.lansingsci.com, follow us on [Facebook](#) and [Twitter](#). We need your help to increase our communication impact. You can also invite your friends to follow our page on Facebook. When you see our post as something you like or find interesting, please like it and share (or retweet) it to the public. This will push our posts and page out to more people and we can obtain a higher ranking, getting us more likes and impact.

Will this e-newsletter, Facebook, blogs, and Twitter be enough communication? If not, email us to continue receiving a hard copy newsletter (same as e-newsletter).

You will notice our website has had a facelift. We will now be working on updating and improving the content on it. Two things that are new are the fundraiser page and the blog page. You can see detailed information about the fundraiser on its page and you will find articles from members and other interesting articles on the blog page.

Enjoy the winter hunting season and we look forward to seeing you soon.

Shoot Straight!

Mike Hoskins

Banquet Information

Our Annual Fundraiser and Banquet is March 16th and 17th. It will be here before we know it. We are building this year's banquet using many of your suggestions and working to add more firearms, auction items, raffle opportunities, outfitters, door prizes, and more! This event will be a great value for your ticket price and is shaping up to be one of the best events yet. Go to our [fundraiser](#) page on our [website](#) to see more details and get your tickets today!

Read what other Chapter members have been doing (also, email us your articles and pictures!):

Bow Hunting in Spain for the Ibex Rut

Ibex Rut in Spain (a bow hunting dream!) by Kent Ballard, SCI Member I spent a week in Spain bow hunting during the peak of the Ibex rut.
